

The world today is so full of filth that you cannot turn on the tv or radio that you are not exposed to sex, violence or inappropriate language. It is great to know that there is a station like K-LOVE that you can tune into and not be exposed these things. I find the songs and words of encouragement very uplifting. The young people at our church listen to K-LOVE. What a wonderful blessing! It is great to hear good news. You cannot be depressed listening to the good things on K-LOVE. It would be awful for the FCC to replace such a station as K-LOVE with an LPFM broadcaster. Our country is at a crossroads, I hope you will be prayful about your decisions and I will.
